

## ROOSEVELT TO N. Y.

EX-PRESIDENT LEAVES CHICAGO FOR HIS HOME AT OYSTERTER BAY.

## COLONEL WEAK AND NERVOUS

Physicians Demand Absolute Quiet For Distinguished Patient, Although Condition Is As Good As Might Be Expected.

Mercy Hospital, Chicago, Oct. 22.—Despite his weakness and nervous condition, Colonel Roosevelt left the hospital at 7:30 o'clock Monday morning and an hour afterward was on his way to Oyster Bay, N. Y., aboard a 24-hour train over the Pennsylvania railroad.

A consultation of his staff physicians Sunday night definitely decided this move, although they were not hesitant in saying he should have remained at the hospital until Thursday at least.

It became known Sunday night for the first time since the shooting the exact location of the bullet fired by John Schrank in Milwaukee last Monday.

The bullet, it was found by a new X-ray plate, is lodged outside, instead of inside, the fractured rib, and can be removed at any time Colonel Roosevelt desires.

This fact greatly encouraged the doctors and, in interviews after the consultation, they emphasized the point that the colonel is in as good condition as might be expected.

Doctor Murphy at the last minute decided that the risk of Colonel Roosevelt traveling to the railway sitting in a limousine, as had been planned, was too great to be incurred, and he ordered that Colonel Roosevelt be transported in the hospital's electric ambulance. This lowered the liability of injury to his wound through crossing car tracks, the Chicago river bridge and rough places in the paving.

The route of the ambulance and party from the hospital to the Union station was:

From the Prairie avenue gate of the hospital, north to Sixteenth street, west to Michigan avenue, north to Jackson boulevard, west to Canal street and north to the depot.

The party traveled slowly, one hour being taken for the three-mile ride. The patients in the hospital were very much alive to the colonel's departure and the Prairie avenue windows of the hospital were alive with fluttering handkerchiefs.

Every precaution was taken at the station to keep the crowds from jostling the colonel. Fifty policemen formed a phalanx around the former president. The Roosevelt family and party had two cars placed at their disposal. Dr. Scurry, L. Terrell and Dr. Alexander Lambert accompanied the colonel to Oyster Bay.

No one was allowed to see the colonel en route.

"So I am going at last, am I?" said the colonel, after reaching his private car. "Well, I am greatly relieved. The week has passed very slowly for me."

"But you will have to be more quiet at Oyster Bay than you have been here," one of the doctors said. "The colonel looked at them with a twinkle in his eye."

"We'll see," he said. The colonel will, after an enforced rest at Oyster Bay, begin preparations for his last speech of the campaign to be delivered at Madison Square garden, New York, on the evening of October 30.

## POWERS ARE ALERT

BALKAN WAR CAUSES GREAT UNREST AND ACTIVITY AMONG EUROPEAN NATIONS.

## GREEK FLEET PUTS TO SEA

Turkish Warship Is Blown Up by Bulgarian Mine—Sultan's Garrison of 7,000 Men at Berana Routed by Montenegrins.

London, Oct. 20.—Notification that Bulgaria, Serbia and Greece had declared war against Turkey was given to the British foreign office on Friday. The only formality now lacking is the declaration of war by Turkey against Greece. This little detail, however, is not delaying the movements of the various armies. The Turkish and Bulgarian forces are both advancing, and it is thought probable they will meet somewhere in the vicinity of Mustapha pass.

At the same time the Serbian army is on the way to Uskup, where another big battle is anticipated.

A Turkish warship, while maneuvering for a position whence to shell a Bulgarian port, was blown up by a Bulgarian mine, according to unofficial dispatches from reliable sources.

Two Greek gunboats, after a daring dash past the strong Turkish fortifications in the Gulf of Arta, captured a Turkish torpedo boat and two steam launches armed with rapid-fire guns.

The whole of the Turkish garrison at Berana, consisting of 4,000 regulars and 3,000 irregulars, fled in the night before the capture of the town by the Montenegrins. The Montenegrins pursued the fleeing garrison and took several hundred prisoners and three field guns.

The Greek fleet has left Athens under sealed orders for an unknown destination.

Overshadowing the actual fighting in point of importance are the reports from foreign capitals of the growing restlessness of the powers and their increasing activities in preparation for any contingency that may endanger their respective interests in Europe's hotbed of rebellion.

Dispatches have been received here stating that several Turkish army doctors have been sent from Constantinople to Janina, a city near the Greek frontier, with a supply of typhus and cholera germs for the purpose of spreading disease among the troops of the enemy.

## DEFEAT FOR BECKER

DEFENSE TESTIMONY IS RULED OUT BY COURT.

Stories by District Attorney Jerome, Commissioner Waldo and Frank Luban Are Barred.

New York, Oct. 19.—A triple defeat was suffered by the defense in the trial of Police Lieut. Charles Becker, charged with the murder of Herman Rosenthal in the criminal branch of the supreme court before Justice Goff.

Immediately following the opening of the defense former District Attorney W. T. Jerome, Police Commissioner Rhinelander Waldo and Frank Luban were called by Attorney J. F. McIntyre, chief of counsel for Becker, but the court would not allow their testimony to stand.

When Mr. McIntyre tried to discredit part of Jack Rose's story through testimony of Mr. Jerome, the court sustained all the objections of District Attorney Whitman and the former district attorney could not get his story in.

Next came Police Commissioner Waldo, who testified that he had instructed Becker to raid Rosenthal's gambling place and who was further prepared to testify that Becker tried to get relieved from duty as head of the "strong arm" squad, but his evidence was ruled out as immaterial.

The third defeat came when the defense called Frank Luban, brother of Morris Luban, who had testified he saw the shooting of Rosenthal and had identified the gunmen in open court as the assassins. Frank Luban was willing to repudiate his brother's story, but all that he was allowed to swear to was that "Morris Luban could not be believed under oath."

## JACK JOHNSON IS ATTACKED

Unseen Man Hurls Inkwell at Black Pugilist From Building in Chicago.

Chicago, Oct. 22.—While a crowd of 500 persons at Monroe and Dearborn street on Saturday was hissing Jack Johnson and jeering at a bodyguard of six strong-arm men who cleared a way for the negro pugilist to reach his automobile, a man leaned from an upper window of the First National Bank building and threw a heavy glass inkwell at Johnson's head. The inkwell missed its mark by two feet.

Johnson drove up to the First National bank a few minutes after he left the court room of Judge Hopkins in the Criminal Court building, where the hearing of the charge against him of abducting Lucile Cameron, nineteen years old, had been continued to October 29, in order that the federal government might investigate charges that the Mann white slave act had been violated.

## MADERO WILL FIGHT

TROOPS TO VERA CRUZ TO RETAKE CITY AND OUST DIAZ.

U. S. Cruiser Tacoma Ordered to Co-Operate With Des Moines in Protecting American Interests.

Washington, Oct. 19.—Dispatches received by the state department from Mexico state that President Madero has dispatched troops from that city of Vera Cruz with the view of recapturing the city and driving out Felix Diaz, nephew of former President Diaz, who is in possession of Vera Cruz and considerable surrounding country.

A report received at the state department stating that the two federal Mexican gunboats in the harbor of Vera Cruz have joined the rebels was denied at the Mexican embassy. On the contrary it was stated that the gunboats are in possession of the federals and when the federal soldiers begin their attack upon Diaz the gunboats will co-operate in forcing Diaz to surrender.

Acting Secretary of the Navy Winthrop cabled Commander Darrell of the Tacoma to leave Bluefields, Nicaragua, for Tampico, Mex., immediately. It is expected that the Des Moines, which is en route to Vera Cruz, may possibly need the help of the marines which are aboard the Tacoma if it becomes necessary to interfere with the rebels under Diaz to protect American and foreign interests in Vera Cruz.

**Optimists.**  
For non-committal brevity of speech, commend us to the Yankee lord of the soil. One such, who was obliged to make a physician daily visits, had an unvarying answer to the question, "How do you feel today?" "Well," he would reply, showing as little interest in the subject as possible, "I ain't no wuss." Further than that he wished to say nothing, and it took the cunning of a serpent to discover his real feelings. A man who was knocked down in the street by a snow-slide was assailed by a sympathizing crowd with condolence and question. "Did it hurt you?" inquired one of his rescuers as he brushed the snow from the clothes of the well-powdered victim. "Well," was the cautious answer, "it ain't done me no good."—Argonaut.

**Liquid Measure.**  
It was the time of the singing lesson at the local council school, and the teacher was explaining to the young hopefuls that if a "treble," and "alto," a "tenor" and a "bass" sung together, their united efforts would constitute a quartet.

There seemed no trouble about that, and the teacher thought the class was getting on very nicely. "Now, Jimmy, leave off pinching your brother's leg and listen to me," said she. "If a bass and tenor sang together, what would you call that?" Jimmy was the son of the local milkman, and a bright lad withal. His answer was not long in coming. "Please, miss," said he, "that would be a 'pintette'."
